At the Center for Advanced Periodontics and Implantology, Drs. Fred and Rebecca Bye use the latest technology to provide patients with state-of-the-art treatment in a comfortable, relaxing atmosphere.

## THE CENTER FOR ADVANCED PERIODONTICS & IMPLANTOLOGY DELIVERING HEALTHY, HIGH-TECH SMILES

The Center for Advanced Periodontics & Implantology is owned by Drs. Fred and Rebecca Bye, who are Board Certified Periodontists. Together they have over

*“We feel it’s imperative to give our patients the most advanced treatment available, particularly in the field of implant dentistry, in order to create healthy, attractive smiles.”*

35 years of experience in advanced dental implant and oral plastic surgery. “We feel it’s imperative to give our patients the most advanced treatment available, particularly in the field of implant dentistry, in order to create healthy, attractive smiles,” says Dr. Rebecca Bye.

She and her husband, Dr. Fred Bye—leaders in the field of implant dentistry for more than 22 years — recently installed The i-Cat Cone Beam 3-D Dental Imaging System. The Center is one of only 700 locations worldwide with this technology, which enhances patient treatment planning and surgical predictability. “This technology provides in-office, high definition, three dimensional digital data with one-tenth the radiation to the patient than traditional CT scan machines,” says Dr. Fred Bye. “It’s a quick and painless 20-second scan producing the most anatomically accurate 3-D images of the mouth, face, and jaw. Since the machine is in our office, our patients avoid hospital visits and multiple appointments.”

Drs. Fred and Rebecca Bye work closely with other referring doctors to coordinate even the most difficult dental implant cases. They are dedicated to excellence, and make patient comfort a

top priority. “We care about each patient, from treatment through recovery. We strive to create a calm atmosphere and offer conscious sedation to make our patients feel more at ease,” says Dr. Rebecca Bye.

Here’s what patients are saying: “Dr. Bye, from the extraction to the bone graft and implant surgery, I am very pleased with the pain-free experience. You have an extraordinary gift and I thank you for sharing that gift with me. I am extremely grateful for you and your staff. Having the implant has been life-altering for me.” Donna Deal, Big Pool, Md. ●
